

FreeLine™ Oxygen Mask

Medium Concentration, PVC-Free

Intended use:

Medium concentration masks are intended for administration of oxygen when precise control of inspired oxygen concentration is not mandatory. During inspiration the patient draws gases both from oxygen flowing into the mask through the tubing, as well as from room air via ports on the sides of the mask. The masks are connected directly to a compressed air or oxygen supply. The products are intended for single use only.

Product range:

| | REF* | Item | Size | Description |
|---|----------|--|-----------|--|
|  | 93-103FL | FreeLine™ Medium Concentration Oxygen Mask PVC-Free | Adult | Medium Concentration Oxygen Mask with soft cushion and curved nose seal, Headband, No tubing |
